**Notes from Mrs. Maurer...** Students are learning about sources of energy in science and there is a hummmm in the room as they practice using their textbooks to find out facts relating to energy. Soon we will use this knowledge to conduct some experiments using a variety of energy sources (Pray for the sun to shine so we can use solar energy, too!).

In Social Studies, students created personal timelines to order the events of their own lives. We then used a timeline to establish the development and expansion of the United States. Students are currently reading about The Westward Movement and getting ready to learn about how immigrants brought new ideas and changes to our country.

This is the final week of the second trimester. Students have been completing chapter tests, writing projects, and reading assessments. The classroom is very busy, and every minute counts during this important learning time. Students who miss classroom time must be sure to make up missed work and check with me for homework/ missed work folders that are always kept on desks for absent students. Thank you for getting students to class on time, as we use those first daily minutes for organizational tasks and mini lessons. Look for report cards to come home on the Friday before Spring Vacation.

Next week is St. Patrick's Day, on Wednesday. We will not be having a party, but we will have a small celebration during religion that day. Mrs. Wisnovsky is providing a "green" treat. Would anyone like to provide a "green" drink? Let me know!

This weekend come watch the Middle School musical production of *The Wizard of Oz* in the gym on Friday & Saturday evenings, and Sunday afternoon! Our class will be viewing the dress rehearsal on Friday, March 12! We're off to see the wizard!
